

ABOUT US

VALUES

Unity of Purpose

We will operate with a common sense of purpose and direction.

Teamwork

All our staff are encouraged to work as a team to achieve common goals.

Fun

Whilst achieving goals is important, we believe it is also important to incorporate fun into the work environment.

Customer Service

All our customers will receive exceptional service that is informed, attentive and professional from all staff at all times.

Respect and Trust

We will respect the dignity and rights of each person in the organisation and create an environment that encourages open and honest discussion

Our Philosophy

Deliver high quality assessment, treatment and rehabilitation services to people living with an injury or disability that prevents them from functioning at their optimum level and actively participating in life.

One of our primary goals is to assist people to participate to their full potential in the activities of everyday life and living. We achieve this by enabling people to do things that will enhance their ability to participate or by modifying the environment to better support participation.

PRESENT DAY

- MPOT/Access Fitness is one of South Australia's largest and leading providers of Allied Health and Disability Services to the community.
- MPOT/Access Fitness has expanded into a group of specialist and highly committed allied health professionals including Occupational Therapists, Physiotherapists, Exercise Physiologists and Speech Pathologists who deliver a comprehensive range of expert services to people who have sustained multiple and/or serious injuries, neurological and other complex physical injuries and disabilities.
- MPOT/Access Fitness works with a diverse range of clients of varying ages, from teenagers, adults and people over 65 years of age.
- People can access MPOT/Access Fitness services in a variety of ways, including through NDIS, Return to Work SA, motor vehicle insurance, DVA, Aged Care Packages, Medicare health care plans and private health.

Many of the therapists who have worked with MPOT have become leaders in their fields.
